

Submitter: Tom Mckenna  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3390

With all the problems we face as The American people. This it the what you choose to spend taxpayers money on. Why would you not invest the same money in planting trees witch would have a greater impact on your local area. Just plantvas many trees as you could. The trees would clean the air, sequester more carbon, and increase oxegen.
