On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

I oppose SB348 and -1. In addition to all of SB348-1's unconstitutional components it is also the way this bill has been amended.

The underhanded method of gut & stuff legislation is blatantly an attempt to undermine the democratic process. Add in the emergency clause and you have a recipe for tyranny. Rule by decree is your goal. I urge anyone who reads this to stand up and oppose this legislation and shine a light on the communists in our midst.
