

Submitter: Joseph Mitchell
On Behalf Of: Americans
Committee: Senate Committee On Judiciary
Measure: SB348

This is nothing more than an end around to 114 which is already awaiting a court date. It's actually worse as it deprives a particular age group of their rights protected by the Federal and State Constitutions. So much for "equity". It is nothing more than a shady attempt to drive up legal costs which you don't care about because the money you're spending is the taxpayers! Measure 114 is in the courts, let it be decided there.
