Measure: SB348

Dear members of the House Judiciary Committee,

I am writing this testimony in a staunch opposition standpoint. This is nothing more than a backdoor attempt to implement Measure 114 which is currently in the courts. On top of that this is covering other aspects of the gun debate which are making their ways through the court systems and are looking to be struck down as unconstitutional. This Bill will impact those of lesser socioeconomic standings and minority demographics with its absurd loopholes and forceful financial requirements in order to exercise one of our original 10 rights given to us at the founding of our republic. The magazine ban backdate is another constitutional violation to our rights about unlawful seizures.

It's not the law abiding gun owners you need to legislate but enforce and stick too effecting punishments to those that actually commit crimes. Try enforcing and following through with what you have on the books instead of being lead by fear and emotion groups.

More regulation that only applies to law abiding citizens will DO NOTHING to fix the issues this state faces and will strain already limited resources. I Implore you to Oppose SB248.
