Committee: Senate Committee On Judiciary

Measure: SB348

Dear Senate Committee Members; This bill should be named the Reduction of Lawful Rights Act. Disarming law abiding citizens will increase crime and social unrest. Law abiding citizens have a legal right to be armed for self defense. Sharing information of law abiding citizens with the FBI is not only wrong, this is treating the citizenry as though guilty until proven innocent. This is shameful. This bill has no business in a free and civilized society. I strongly oppose this bill and others like it.
