

Submitter: Wesley Rostomily
On Behalf Of: All fisherman
Committee: House Committee On Judiciary
Measure: HB3390

Hello I am writing this in opposition of the proposed bill. This bill would gravely affect the fishing industry as a whole. We have suppliers in OR the we rely on to maintain business. This importance of the sale of furs in Oregon is vital to hundreds if not thousands of small business across the country. Please rethink the process of even giving these asinine blanketing bills the light of day.

Thank you for reading. Please do the right thing.
