Measure: SB348

I write this in opposition to any and all new gun legislation that you pathetic oath breakers happen to dream up in your diluted minds. You would make criminals out of the law abiding and yet you do nothing to enforce the laws already on the books against actual criminals, criminals who care not what is written on paper. As far as I'm concerned anyone who would try and curtail the 2nd amendment or any of the amendments for that matter are the true criminals that should be arrested and tried for treason.

Honestly, I don't even know why am writing this, you will probably not ever read it, nor do you care what anyone with opposing views thinks or believes. So congratulations tyrants! I'm sure you will pass your unconstitutional nonsense regardless of the testimony's but make no mistake we will fight you to the bitter end and history will see you for what you were, Tyrants and traitors to the Republic.
