

Submitter: Judith Boothby
On Behalf Of: No to SB 408 a Chiropractor
Committee: Senate Committee On Health Care
Measure: SB408

I am writing to oppose Senate Bill 408 which directs the Oregon Health Authority to establish a process to review scope of practice requests. This will create a burdensome layer of bureaucracy. Since it takes close to a year to get a simple building permit these days, I can't imagine how long this scope of practice determination will take and I cannot imagine it will be fair to low risk nurturing forms of health care. I am not convinced there is sufficient enough problem to have this bill and it's ensuing chaos. Please disregard this piece of legislation. Judith Boothby, Chiropractor
