

Submitter: Jack Holt
On Behalf Of: Self
Committee: Senate Committee On Judiciary
Measure: SB348

SB 348 is obviously designed to do three things.

1. Work around Measure 114 by deny the pending court action and taking effect immediately.
2. Changes waiting time to 72 hours after purchase and reinstates 10 round retroactively effect date as stated in Measure 114.
3. Eliminates to the greatest degree possible public comment by releasing SB 348 late Friday and having the Senate committee hearing late the following Monday afternoon.

Measure 114 deserves its day in court. The public deserves to be heard. Those who purchased firearms legally would after the December purchase deadline would have violated the law. This issue does not rise to the 'emergency' level, appearing to be simply a one party agenda item. I see nothing that indicates there is budget, manpower, and a process for implementation in the staff report.

Oppose SB 348.

Respectfully submitted.
