

Submitter: Judith Dow

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

I oppose SB 348. US Constitution Amendment II-the right of the people to keep and bear Arms, shall not be infringed. Why are you wasting time going after law abiding citizens rights. A family that hunts together, teaches their children gun safety. A family that shoots together, teaches their children gun safety. Measure 114 is unconstitutional and now this committee wants to infringe more stupid regulations on law abiding citizens. Why is not our state leaders paying attention to why the homeless are homeless, why the drugs are out of control, and why are Redmond 5 murders going to be released soon. The state puts criminals back on our streets. If you dealt with the why, gun violence would go down. But this state chooses to attacks law abiding citizen. Please listen to the population and take guns off your agenda this legislative session. Thank you
