On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB527

All sales of guns, ammo, and gun components should be available to be purchased according to the current laws...NO NEW GUN LAWS. You guys have already overstepped your boundaries. Criminals can buy whatever they want whenever they want it, and your new gun laws will never change that... just like all of your past gun laws have not changed that. Use some common sense and quit with the leftist crab.
