On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

As a lifelong Oregonian I am completely dumbfounded as why our political leadership thinks they have authority to disregard the Constitution of the United States. It is very clear in the second amendment that "shall not" means shall not. Everything about this bill and its horrible amendment is a complete violation of this very same Second Amendment of the United States Constitution. Any support of this legislation is anti American. This legislation allows for an unconstitutional infringement on the rights to keep and bear arms by all citizens of legal age. These shall not be infringed upon, these are of the Certain Inalienable Rights our Constitutional Republic was founded on and the same principles we believe in today. Passage of this bill will enable and assist the communist takeover of Oregon and the United States of America. The people of Oregon are strong majority Conservatives, do your research. Oregonians do not support this legislation at any level. Thank you.
