Senate Judiciary Committee,

I am in opposition of SB 348. The amendments in this bill would be a blatant overreach from our government. I believe this bill would make the people of Oregon less safe. The proposed bill would affect lower income households more while just trying to exercise their constitutional rights. This bill is completely unconstitutional anyway. Magazine capacity bans will only negatively affect legal firearm users. The bill would do almost nothing to the criminals while punishing everyone else that follows the laws. How about we spend our time prosecuting criminals and get a handle on our mental health/drug crisis. Get police involved in our schools again. Our state is the laughing stock of the USA due to failed leadership. Vote "NO" on SB348.
