

Submitter: Carly Ralston
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

2nd amendment, we have this right. It's the LAW of our United States of America.
What gives you the right to take that away.

You have legal drug use, so so much h crime because of it, we need to protect
ourselves. You have defunded the police, how are we to feel safe?!

What have you done in the last 20 years that has made oregon better and safer,
crime free, this is just another law to destroy Oregon and keep it full of crime! Oregon
in the headlines for worst crime and drugs! Not safest most beautiful best places to
live like it used to be.

Your laws have made it one of the worst states to live....
