Measure: SB348

Any “common sense” gun measure infringes on the rights of law-abiding citizens. If you’re concerned about illegal firearm usage, study how real criminals get their guns. This sounds an awful lot like you’re going to study how many bullets people have in their magazines if Measure 114 is fully implemented. Stop wasting our tax money with these types of bills. Do something useful, like getting rid of Daylight Savings Time. Or how about getting adequate mental health care and addiction treatment for our homeless population instead of trying to cover it up with “pods”? No, you choose to focus on figuring out how to criminalize the people who had guns legally before 114, but are now out of line. Those folks must be easier to catch than the criminals, since you’re not funding the police anymore.
