

Submitter: Christopher Douglass
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

As a 5th generation Oregonian, US Navy veteran and one that wasn't introduced to firearms until I attended Boy Scout camp on my way to earning my Eagle Scout; I am appalled that our Senators would propose a bill to subvert the Judicial Branch's responsibility to review & consider multiple constitutional challenges!

In what Civics class were you educated that Legislation was immune to The Rule of Law? Is there no shame or respect for our Constitutional process that legislators can overrule the Checks & Balances our Democracy was founded on? What an embarrassment upon your constituents and the mothers, fathers & teachers that played a role in your rise to authority!
