

Submitter: Justin Mills

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

I am strongly opposed to SB 348 and the provisions contained within. From infringement due to a permitting process, to a creepy racial and gender data collection process, this one is just disgraceful. Whenever these sneaky two-day methods are dropped with little fanfare in hopes that the citizenry won't have time to respond, it reflects the lack of character of the members that submit it.
