

Submitter: tim cowan

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB80

Section 1.

The State Forestry Department shall study wildfire.

Are you communicating that the State Forestry Department does not have an ongoing study/review of prevention and response to wildfire?

Why would it take two fire seasons before the completion of the study?

How long will it take for implement recommendations?

Without responses to these questions; I would not support this legislation. As written it has limited value.

Respectfully,

Tim Cowan
