

Submitter: Daniel Dizney
On Behalf Of: Eugene
Committee: House Committee On Judiciary
Measure: HB3390

Dear members,

I am concerned not only with animal welfare but also the potential dangers of pandemics being transferred from confined animal rearing facilities. Fur is certainly not a necessity in this day and age so why take the risk and why subject sentient beings to cruel confinement.

Lets do the right thing and pass this bill.

Thank you for your time.
