Measure: SB348

I am opposed to this bill because I am an American.

I am a Patriot.

I have Second Amendment Rights.

I have done nothing wrong, yet I am the one being persecuted and prosecuted for wanting to retain my rights and abilities to purchase legal firearms.

To focus on the law-abiding gun permitted citizens instead of the real criminals makes no sense.

Crime is rampant in these cities, police are left helpless, understaffed and unsupported by those that employ them.

Criminals are not prosecuted for their crimes of murder, rape, rioting, burglary, and numerous other offenses, yet government's answer is to disarm the law-abiding citizens and leave them unable to protect their lives and properties.

Making more gun laws does not fix any of the problems we are experiencing in society. Anyone can assure you that a criminal will not be "applying" for a gun permit to legally obtain a gun, so why keep pushing this ridiculous narrative that such actions would make society safer?

Applying the laws already on the books to prosecute criminals and their crimes might be a start.

It is so sad what our representatives are doing to those of us that have been led to believe we "elected" them because of their willingness to stand up for the peoples rights. Yet again things are done under cover of night and people are left unable to redress their grievances.
