On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB348

The lack of public transparency and time to review and respond to the amendment to this bill is both concerning and unacceptable. Your role is to serve the people, not make decisions without soliciting public opinion. Supporting a bill with a significant amendment with a significant lack of time to understand your constituents preferences is not doing your due diligence. Please oppose for the sake of democratic process.
