

Submitter: Priscilla French
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

March 27, 2023

Dear Ladies and Gentlemen

I am a native Oregonian and have retired from my former office work as a executive assistant and sales analyst at some of the largest companies in the US, lived abroad and now farm horse hay in Tumalo. I am grateful to be able to live and work on this land and be close to the great outdoors of Oregon. I want to thank your time to read this and look forward to your reply.

After 30 years of long office hours sometime working around the clock, relocating to new homes in different countries, my husband and I chose to establish Bend as our retirement destination. We saved and planed many years in advance of our arrival here. In order to get to this retirement, we paid very excessive amounts of local, state and federal taxes. We jumped through hoops to ensure every government regulations was adhered to by-the-book and set a bar-high for our personal, financial, ethical and moral standards.

The concern that I would like you to be aware of and do something about do not pass SB 348: I DO NOT support this bill. Oregon legislature is bypassing the judicial system to implement their own "emergency" version of M114 with a last-minute version of amendments.

Thank you in advance for stopping SB 348 today.
