

Submitter: Stanley Kennedy
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

Members of the House Committee on Judiciary,

I am very concerned about the impact of HB3390 on myself, several of my friends, fly fishing retail shops and all of those in Oregon that take part in the tradition of tying their own fishing flies.

As fly fishers/tiers we use a lot of different furs from animals for our craft. These materials are purchased from retail stores that specialize in fly fishing gear and materials. Not only would the inclusion of fly tying materials in this bill greatly impact all fly tiers in Oregon, It would also financially impact several local small businesses that specialize in fly fishing gear and fly tying materials.

I strongly urge you to at least make an exemption for furs intended for fly tying and packaged and sold as such.

Respectfully,
Stan Kennedy
