

Submitter: Joel Salter  
On Behalf Of: Humanity  
Committee: Senate Committee On Judiciary  
Measure: SB348

I indicated that I am neutral on the SB 348 with the caveat that it should be consistent with measure 114. If it is written, consistent with the goals of measure 114 then I do support it completely.

I appreciate the work that has been done by the committee but I do hope that senate bills 348 will be consistent with measure 114 that I voted for.

I would like to see SB 348 include a permit requirement for purchasing a hunting gun(s) and a sticking with background checks that focuses on assessment of applicant danger to themselves an/or others.

Sincerely,  
Joel
