

Submitter: Sandra Cordeiro
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

As a lawful gun owner and supporter of the 2nd Ammendment - I follow any potential changes to our constitutional rights. I fail to see how the changes you are proposing do anything to prevent illegal gun ownership or illegal use of guns on our society. Legal gun owners make great strides to follow the rules and laws of our territory and country. They take classes, pay their hard earned money to do things the right way so that they can protect themselves and their families. Honoring the laws on the books that put criminals in jail for their bad behavior is the only way to change the safety of our streets. District Attorneys need to follow up with the laws that we ALREADY have. Making more laws don't make criminals follow more laws. They don't respect our laws or our State legislatures because we do not follow up on prosecutions. Criminals don't care about these proposed new bills - because they know they don't care about the laws right now, nor will they every care about them. GET REAL! GET TOUGH! We are tax paying, law abiding citizens and you are trying to make US the criminals. How does that work? I stand against these proposed illegal bills that will take away the rights of WE THE PEOPLE!
