Measure: SB527

If this bills pass, it will be legal for an 18 year old to be in the military and be trained to use a gun, but not purchase one. It will be legal to vote, but not enjoy rights of citizenship unencumbered by government . Only if they have committed a crime should that be lost. Mentally ill should not have that right either, but they need to be in treatment, properly diagnosed and not living under a bridge, and public safety is a concern when people such as criminals and those incapable of making sound decisions due to mental illness. Gun control laws do not make anyone safer as criminals and mentally ill will not follow your laws, only the law abiding that should have no regulations will be deprived of their rights will be the outcome of these laws.
