Committee: Senate Committee On Judiciary
Measure: SB348

Members of the Senate Judiciary Committee,
I am writing you today in firm opposition of SB 348! This Senate bill is almost a mirror image of Measure 114, which is being challenged in State and Federal court because of its unconstitutional nature.

The Bruen decision that came out last June from the Supreme Court set a new standing on how our 2A rights are supposed to be viewed. Measure 114 and SB 348 are in direct violation of this ruling. This will be challenged in court and this will be overturned.

SB 348 also raises the cost of the PTP from \$65 to \$150!! This negatively impacts people of color that live in urban environments, low income and also single parent households. This bill will disproportionately create hardship for those who might wish for self protection most. Self protection is the number one reason given for those who have purchased firearms in the last 3 years, since the defund the police movement has crippled our police and resulted in out of control crime in urban areas across our state and the nation.

Please take a step in the right direction by voting in opposition to SB 348 and all of its amendments.
