Measure: SB348

Dear Honorable Oregon State Legislators;  
SB 348 is another poorly written, rushed piece of legislation that seeks to disarm the law abiding, legal and honest citizens of Oregon. Further restrictions such as SB 348 proposes, is empty and ineffective legislation that does nothing to address “unlawful possession of firearms!” Why not write meaningful legislation that seeks to address the crimes perpetrated by criminals with guns. Furthermore; recidivism rates and the failure to rehabilitate criminals should be the foremost concern and priority for legislators!  
Please don't embarrass Oregon State on the National level by ramrodding another lousy piece of legislation that violates the 2nd amendment rights of law abiding citizens.  
Respectfully submitted.
