Measure: HB3390

As a lifelong resident of Oregon (60 years). I write with strong opposition to house bill 3390. This bill is an audacious attempt to cancel a culture this fine state was developed and founded on. It is frustrating to see the emotional view of people and groups put these practices of self-sufficiency under attack without complete understanding of this generational lifestyle.

To me this is a backdoor attempt to ban and/or slow down the ability to trap, hunt & fish. The sentiment to pass down the traditions of fur handling and the artisanship associated with this lifestyle should not be denied to any citizen. I believe passing HB 3390 would have detrimental effects on business, outdoorsman, and countless families.

As I entrust the democratic process on this matter, I would like to express my appreciation for your time and consideration on this issue.

Warm Regards

Robb Keeney
