Committee: Senate Committee On Judiciary

Measure: SB348

I am vehemently opposed to ANY BILLS that are shoved into process at 7pm on a friday night, with the purpose of and knowing full well the bill will not have adequate time to be looked at by all legislators.

This gut and stuff bill is just going around the legal process happening with 114.

It has nothing to do with illegally owned firearms. It has everything to do with denying constitutional rights of law abiding Oregonians.

I strongly urge opposition to this heinous and unconstitutional bill.
