

Submitter: Michael Mauro
On Behalf Of:
Committee: Senate Committee On Health Care
Measure: SB408

I am opposed to this bill. The last thing Oregon needs is more bureaucratic overreach by appointed unqualified lackeys. We've seen this one already for far too long with this never ending "emergency status" nonsense. Allowing non-medically licensed individuals to determine care protocols for individuals through regulations and mandated practices over physicians is completely ludicrous and far beyond any legitimate need or desire, in addition to a violation of the personal medical rights of the citizenry. I want my chosen physician to have every choice available and existent at their disposal at MY direction. This would also back door the ability of the State to mandate physicians to perform treatments they are opposed to, like forcing vaccinations on the populace that are personally unwanted, with or without notification and morally antithetical procedures by threat of licensing forfeit or refusal. Yeah, we've seen this one already. Drop it. Hard NO.
