

Submitter: Donna Patterson Kellum

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB408

It is wrong for unelected officials' to assume authority over medical professionals concerning what is best for a person's health and that of their children. Government employees and officials assuming such control to allow the pharmaceutical industry more power is astonishing and horrifying. My medical freedom as an individual is crucial here and must be protected as the peoples' rights.
