

Submitter: Aaron Starr

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

Why don't you actually do something that helps the People, and not creates a path to remove the ability of good citizens to keep and bear arms? We are not dumb - we see this is a path to a gun registry so tyrants know where to go and collect the guns. Maybe you should do something about the political elite killing the middle/poor classes with crushing inflation, out of control homeless, schools that want to mutilate children?
