

March 26<sup>th</sup>, 2023

Dear Chair Prozanski and fellow Judiciary Committee Senators,

I submit this testimony in **ABSOLUTE OPPOSITION of SB348**. First, this 'gut and stuff' tactic to 'amend' bills by those hellbent on violating the constitutional rights of The People, must be stopped! It is not hard to understand why a large percentage of The People no longer trust the legislative process. Such tactics by Congress, on a state and federal level, are an abuse of power. Supporting them is a violation of the Oath of Office taken by you all to uphold the Constitution against enemies foreign and domestic, which sadly in this current administration includes some of your fellow colleagues. I encourage those of you with good moral character and a genuine admiration of this Country to stand up in the same manner the Founders of this Nation did to ensure our unalienable RIGHT to Life, Liberty, and the Pursuit of Happiness. Defend Our Freedom! Protect Our Constitutional Republic!

My opposition to this bill sits firmly on the following: **Article 1, Section 27 of the Oregon Constitution, and the 2<sup>nd</sup> Amendment of the United States Constitution**. The statement ***"Shall not be infringed"*** is a clearly defined statement as to your directive on this proposed bill, which is in clear violation of. SB348, a rewrite of Measure 114, once again puts the people who live in places where police are unable to respond quickly at high risk. It is a direct attack on minority communities in low income, high crime areas. So much for "the consistent and equitable administration of the permitting process" (page 6 of the amendment) when fees are more than twice what M114 outlined. SB348 will once again make law abiding citizens felons overnight and opens the door to additional abuse of power and theft by untrustworthy, corrupt, and tyrannical government agencies. (i.e.: The creation of comprehensive "lists" of personal information.) Like all other deplorable 'gut and stuff' legislation, SB348 is far too complex, convoluted, poorly written and contradictory to explain in depth if even at all! There are legal questions such type of legislation is currently being addressed in the Judicial system with M114 and others throughout individual states and SCOTUS. No further legislation similar to such currently being addressed in the Oregon Judiciary system should even be considered by this body at this time. This unequivocally includes SB348. Doing so is subverting not only the Constitution's, the ultimate law of this Nation, but the Judicial process as well.

**KILL THIS BILL AND ANY OTHERS LIKE IT NOW!** Let the legal process already underway determine the validity of the tyrannical efforts to strip Oregonians of our ability to defend our lives and property. Keep your Oath and accountability to The People.

Sincerely,

Jennifer Anderson,
