Measure: SB348

I am in total opposition to this Bill. It is an underhanded way to ensure Measure 114 goes into effect without the adjudication already in the Court system. It basically nullifies a stay written by a judge in Harney County.

Secondly, you have no authority to deny Oregon citizens their God-given right to self-protection as is granted in the Second Amendment to the Bill of Rights of the U.S. Constitution. "SHALL NOT BE INFRINGED" means exactly that.

Thirdly, this bill attempts to sanctify "permits" for owning firearms. Unconstitutional. It attempts to nullify the right of 18 to 20 yr olds, considered adults by law, the right to buy or own firearms. Unconstitutional. Yet you believe 16 year olds are mature enough to vote.?

You, the Oregon Legislature, are not qualified to usurp the U.S. Constitution in any way, or the Oregon Constitution, Article 1, Section 27.

Allow Measure 114 to be adjudicated in the court cases already filed and do not attempt to illegally usurp Measure 114 or install Oregon SB 348-1 in order to install said measure.

The people are the rightful rulers of this nation. We demand that you, our employees, listen to the people of Oregon.
