

Submitter: Victoria HARTT
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

Legislators,

As an RN I cared for many patients and loved ones of gun trauma. The numbers are astounding. Just today there was another school shooting . One of my coworkers was shoot and killed at the Clackamas Town Center Shooting.

When I collected signatures for Measure 114 the majority of the people who commented, voiced support for the common sense approach it was designed to implement.

It must not be watered down and weakened but fully implemented as it was intended.as SB 348

I am taking a neutral position on SB 348-1
Victoria Hartt, BSN,RN
