

Submitter: Chung Moon

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

I oppose the SB348. I am a female American of Asian descent. I have been feeling more and more unsafe living near the city of Portland. The current radical policies the OR politicians have pushed through has made it unsafe to live in OR, especially in and near the city of Portland. Having the ability to purchase and carry my firearm is my right under the US Constitution. Raising the fees to purchase firearms will make it more difficult to keep ourselves safe in a state that the current politicians have made it unsafe to live in.
