

Submitter: Steven Poor

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

This does nothing to address a mental health crisis and everything to do with criminalizing the law-abiding. Your end run around Measure 114 does not make it any more constitutional, nor does criminalizing purchasers of legal products. You are still blind to the traditionally victimized demographics who more and more are becoming legal gun owners in the interest of self-protection. This whole back door charade is an insult to the people of Oregon, including the very people who put you in your seats.
