

Submitter: Susan Dumolt  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB348

Honorable members of the Judicial committee,

It is very important that measure 114 is implemented with the provisions that the people of the state of Oregon voted for. Do NOT water it down. I gathered many signatures to place this issue on the ballot and most people expressed that they wanted MORE regulation, not less. This measure was on the ballot due to a massive outpouring of support for gun safety among the population. For the legislature to water down the measure would severely erode the public's view of the legislature.
