

Submitter: Thomas Anderson
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

I want to go on record as completely against this measure as proposed. I believe that it is merely an end run around the unconstitutionality of Measure 114 being allowed to play out in the justice system.

We already have many laws in place to prevent the illegal acquisition of weapons by those that are not eligible to own them, such as universal background checks. Adding more burdens, and attempts to prevent law-abiding citizens to own and bear firearms does nothing to prevent criminals from obtaining them illegally and using them to commit crimes, any more than increasing the requirements for owning and operating a motor vehicle would prevent drunk drivers.

Again, I stand in opposition, and ask that this bill be put in the waste bin where it belongs.

Thank you!

Tom Anderson
