Measure: HB3202

IN SUPPORT OF HB 3202

Please support House Bill 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

Oregon should follow the lead of other states that have already taken this step. Behavioral and hormonal changes in animals due to over-illumination can have far-reaching effects on public health as well.

Let's protect our night skies now while we still have them, instead of trying to restore them after they're gone!
