

Submitter: Dan Ellis
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

I'm sure this bill is well intentioned, but not well thought out. It will definitely harm fly tyers, both commercial and amateur, who won't be able to acquire much needed materials, many of which are furs, for this purpose. There is no other place for us to go as so many materials have been restricted already. This bill is a bad idea for too many people. Please vote no.
