

Submitter: Valerie Rullman  
On Behalf Of:  
Committee: Joint Committee On Transportation  
Measure: HB3202

Dear Legislators,

I hope to count on your support of the Night Skies bill, HB 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

Oregon should follow the lead of other states that have already taken this step. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

Let's protect our night skies now while we still have them, instead of trying to restore them after they're gone!
