

Submitter: Bruce Dorn

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

I cannot see how this measure will impact crime in any way. Firstly, only law-abiding citizens will be forced to comply with it & secondly, perhaps more importantly, it will deny people who don't have the funds to buy the permit the right to self defense. This poorly designed bill is an attempt to keep "them" from being able to afford guns while folks with means, like legislators, will be able to afford them. It seems as though this violates the "equal protection" of the US Constitution. Thank you.
