

Submitter: Todd Hakes  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB348  
SB 348:

This bill does not accomplish what you want it to accomplish.

Based on other overreaching bills states have passed in the past and then shown to be unconstitutional this bill is also unconstitutional.

If you are trying to stop violent gun deaths, this bill will not accomplish that. (Do a check, Oregon doesn't have a problem with this)

If you are trying to make hundreds of thousands of law abiding, tax paying, economy spending, business owning, job creating, neighbor friendly, virtuous citizens that love Oregon into felons, with the stroke of a pen then this is your bill.

If you want those hundreds of thousands of law abiding, tax paying, economy spending, business owning, job creating, neighbor friendly, virtuous citizens that love Oregon, to move away and take their MONEY to another state that loves them, then this is your bill.

We are so fed-up with lies and sneaky politics to create fear and anxiety and make those of us who love our neighbors (all of them) and put us on our back feet. We are crying and praying for the normal life we all want, deserve and had in the past when Oregon was more free.

You are creating and have created a hostel Oregon, way more hostel than the law abiding, tax paying, economy spending, business owning, job creating, neighbor friendly, virtuous citizens that loves Oregon.

Stop trying to make the law abiding citizens into instant criminals. We spend 10,000 times more money in Oregon than the lobbyist that are paying you. We just don't pay you what they do. IF we paid you what they are bribing you with then we would get more freedom. Please just be honest and tell us there is a bidding war for your vote.

Someday our families, our businesses our MONEY won't be here and you will be left with a cesspool of a state. (that you created)

Oregon is the most beautiful state geographically, the weather is amazing and it has been my home for 54 years, you are keeping me awake at nights when the worst

thing I have ever done is get a speeding ticket over 30 years ago. I have paid my taxes faithfully since I was 18 years old.

I don't believe you listen anymore, I pray that you do. My next vote will be to MOVE me, my wife, my kids, my grandkids, my business, my office and everything out of state. I will cry for a very very long time, but I WILL move my MONEY out of your state. Not just my tax money but my spending money and everyone that goes with me. This isn't a threat, this is reality, California and New York are already feeling the effects of people just like me moving. It is happening. These liberal states are in a death spiral and won't be able to tax their way out.

STOP SB 348, stop ruling with ideas that are not in the spirit of what the Founding Fathers saw was the greatest place for humans to grow into amazing creators, lovers, thinkers, doers, explorers, helpers, families and more. We have in us a spirit of love and freedom. STOP trying to rule with hate and imprisonment.

I ask again stop this bill and stop anything else Oregon will die from. You are killing Oregon and killing its citizens.
