Measure: HB3202

"To Oregon Lawmakers:

I hope to count on your support of the Night Skies bill, HB 3202, which seeks to mitigate the detrimental effects of light pollution on our environment. It's pretty horrifying when you realize how much night lighting disrupts the delicate ecosystem.

Let's have Oregon join with many other states who have taken such steps already. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

Protecting our night skies while we still have them is easier than trying to restore them once they are gone.

Thanks for listening
Jane, Multnomah
