

Submitter: M B
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

I object to this proposal, it's going against my second amendment right. I don't think right that law binding citizens are loosing there gun rights and the rights to protect them selves. I understand that you still can buy a gun, but the how you are pushing this bill and trying to make everyone a criminal for having over a ten rounds. You are trying to make it so hard to have your second amendment right, even knowing us the law binding citizens are not the issue. It's funny how 18 years old can't have a rifle but when you enlist to the service you are allowed to protect your country and not yourself from evil that enter your own house. This bill should have never been written.
