Measure: HB3202

Dear Legislators,

I urge you to support the Night Skies bill, HB 3202, and help improve wildlife welfare, human health, and our environment.

Many other states have taken steps to reduce light pollution already. Nocturnal animals are dependent upon uninterrupted nighttime hours, and behavioral changes stemming from over-illumination can have effects on humans' ecosystem as well.

Protecting our night skies while we still have them is easier than trying to restore them once they are gone.

Thank you for being proactive now to improve our nights for all!
