

Submitter: Justin Barnard  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3390

I am writing you today to let the state of Oregon know that this bill will directly affect the fly fishing and fly tying industry. not just in the State of Oregon, but the world. One of the worlds largest fly tying materials companies Hareline is based out of Oregon. I am in support of sustainable ways to be able to obtain furs such as trapping with quotas on specific fur bearing animals or farms. (as long as those animals are dispatched humanely trapped or farmed.) to ban the sale of fur including deer elk and moose hair (on the hide) seems silly where as there is hunting seasons for those animals. some fur bearers are also predators like coyotes,badgers, fox which have the ability to destroy small livestock including calves, lambs, and chickens. As I said before this directly affects the fly fishing and fly tying industry and if this ban does pass there will be alot of people not just in Oregon but the world that will highly disappointed and angry with Oregon Legislature.
