

Submitter: Chris Hendry  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3390

I am writing you to oppose HB3390, I believe that this would only hurt more rural communities economically as many people rely on fur sales as part of there yearly income and it is a family tradition that is past on from generation to generation. Fur is not only a renewable resource, it creates many jobs, including people that live in the state of Oregon. I find it hard to believe that you have time and money to waste on such a bill when we have much larger and more pressing issues like all the homeless across the state and drug use is completely out of control! Why any sane person thinks this is ok is unimaginable! Are schools are failing to educate our children the list goes on.. please toss this bill out and spend our tax dollars and your time more wisely!!!
